

**Levee Patrol Form**

**Incident Name / Number:** \_\_\_\_\_

**Name:** \_\_\_\_\_

**Date & Start Time:** \_\_\_\_\_

**Patrol Area Assigned:** \_\_\_\_\_

*Note: your patrol area may not have all of these items. Write additional notes on back or additional sheets of paper.*

Item	What to look for	Observations / Areas of Concern / Notes
<b>GENERAL</b>		
Access roads/ramps	Usable and safe?	
Camping on levee system	Where is there camping or abandoned vehicles?	
Debris dams	Any debris catching in the river blocking flow?	
<b>LEVEES</b>		
Saturated areas / Sand boils	Ponding/seepage at levee toes and extending out. New areas? clear vs. muddy? how fast is it moving?	
Slides / sloughs	New slides? Changes in existing slides – like more material missing?	
Wave wash / erosion	New erosion? Changes in existing erosion?	
Low areas in crest	New depressions? Worsening of existing depressions?	
Relief wells	Flowing vs. not flowing?	
Flap/Sluice Gates	If visible, closed properly?	
Temporary floodwalls?	If any installed, are they closed properly?	
Toe Drains	Water flowing? Gushing or trickling? Clear or has sediment? Are drains nearby doing similar things?	
Animal burrows	New burrowing observed? Note any unusual water or slope issues near burrowing sites	
Tree / root damage	Is a tree tilting/falling in levee? Any change in existing issue tree sites?	
<b>FLOODWALLS</b>		
Saturated areas/sand boils	Any present landward of wall? clear vs. muddy? how fast is it moving?	
Settlement / Deflection(movement)	Any observed? Any worsening settlement or deflection?	
Bank caving	Any observed? Worsening of existing bank caving?	
Landward toe wet/soft areas, seeps, sink holes	Any observed? Changes to existing?	
Stop log closures	Seepage through joints being managed?
